

Cuba

As close as you want!

Miami's special interest politics and \$\$\$ make Cuba the only country in the world Americans can't visit.

Two-thirds of us believe travel restrictions should end.¹ Every year 120,000 go through third countries without a license.² The system can't handle travelers who cite constitutional rights and appeal for a hearing,³

The better way is to urge Congress⁴ and candidates to not seek freedom for Cubans by denying it to us.⁵
